Tissue Paper Stained Glass Window Children's Project Supply List and Directions

Supply List

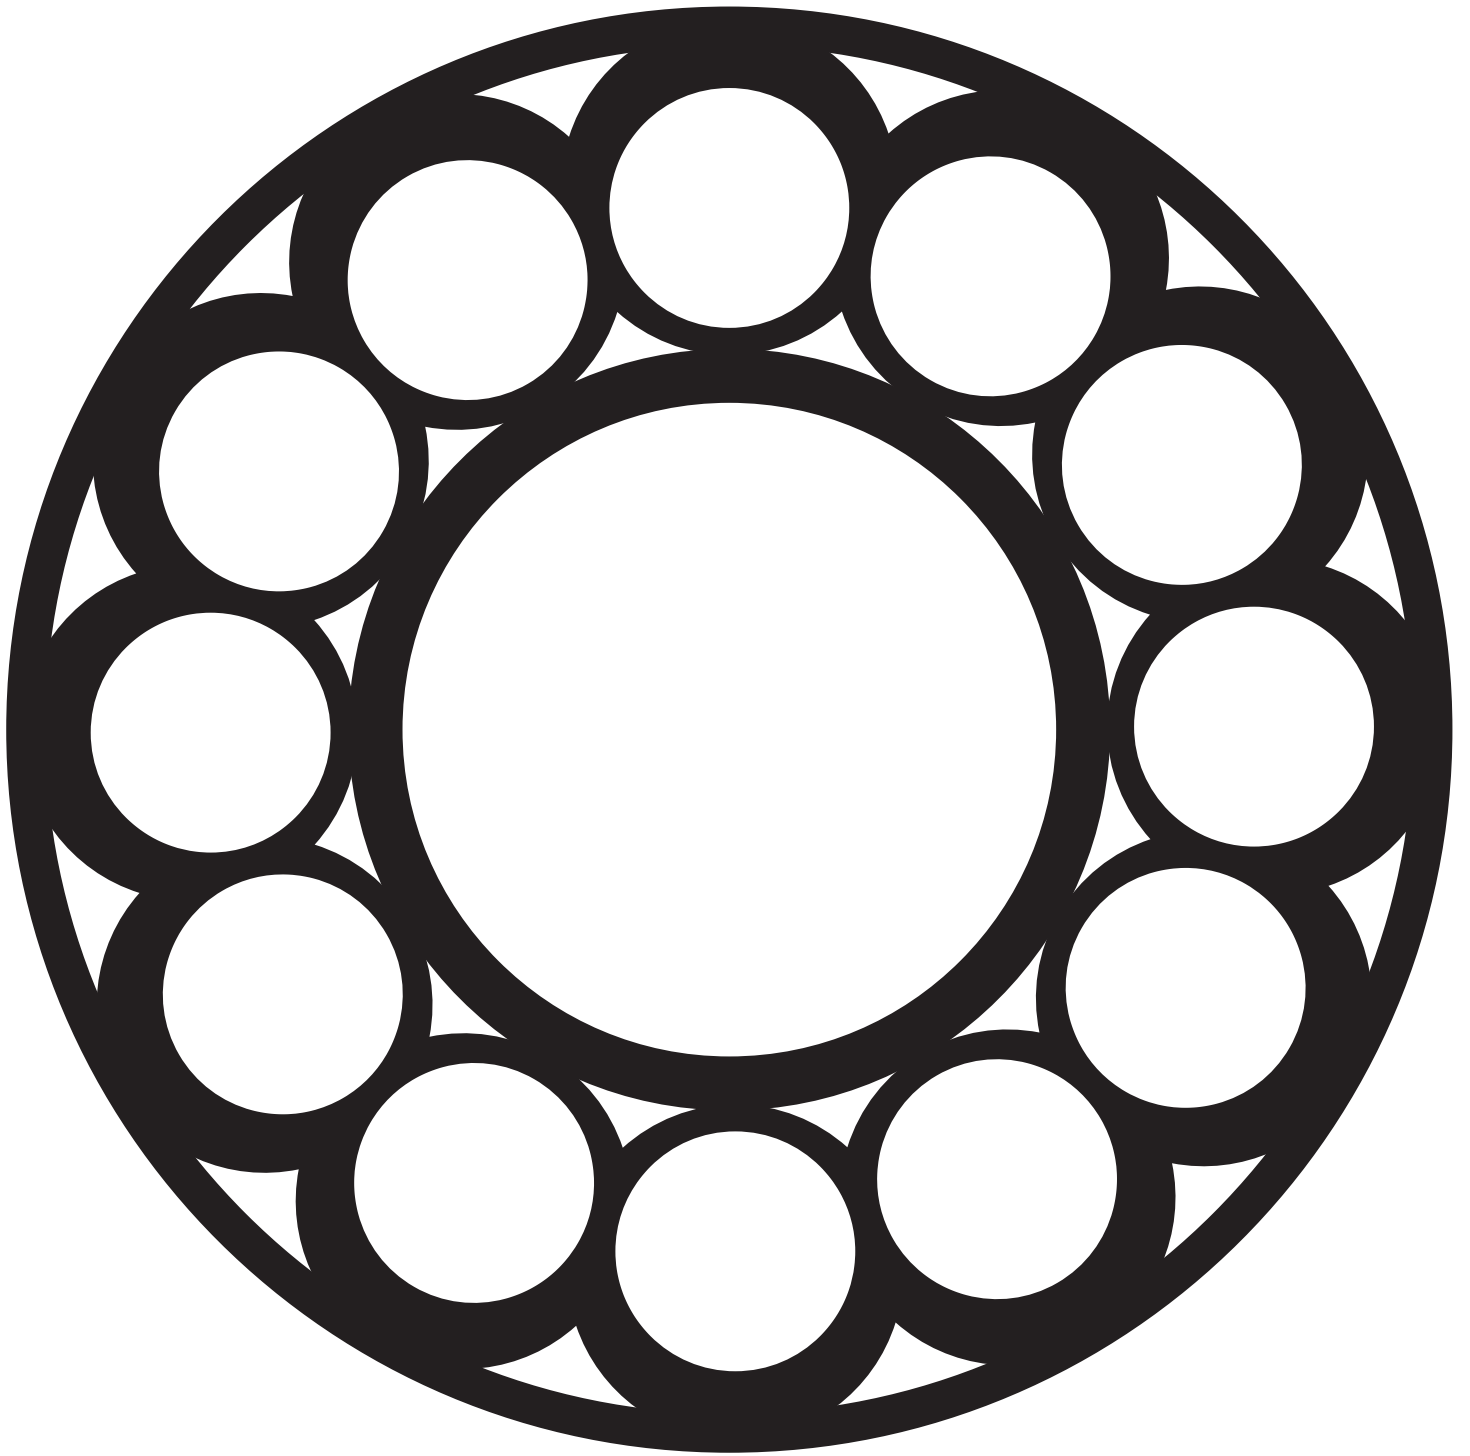

- Transparency sheets (works best with a textured, smudge resistant transparency – use sandpaper to rough it up if it is too slick after printing the pattern)
- Stained glass window patterns (available on our website at ...)
- Sheets of assorted colored tissue paper
- 50/50 mixture of glue and water
- Foam brush
-

Instructions

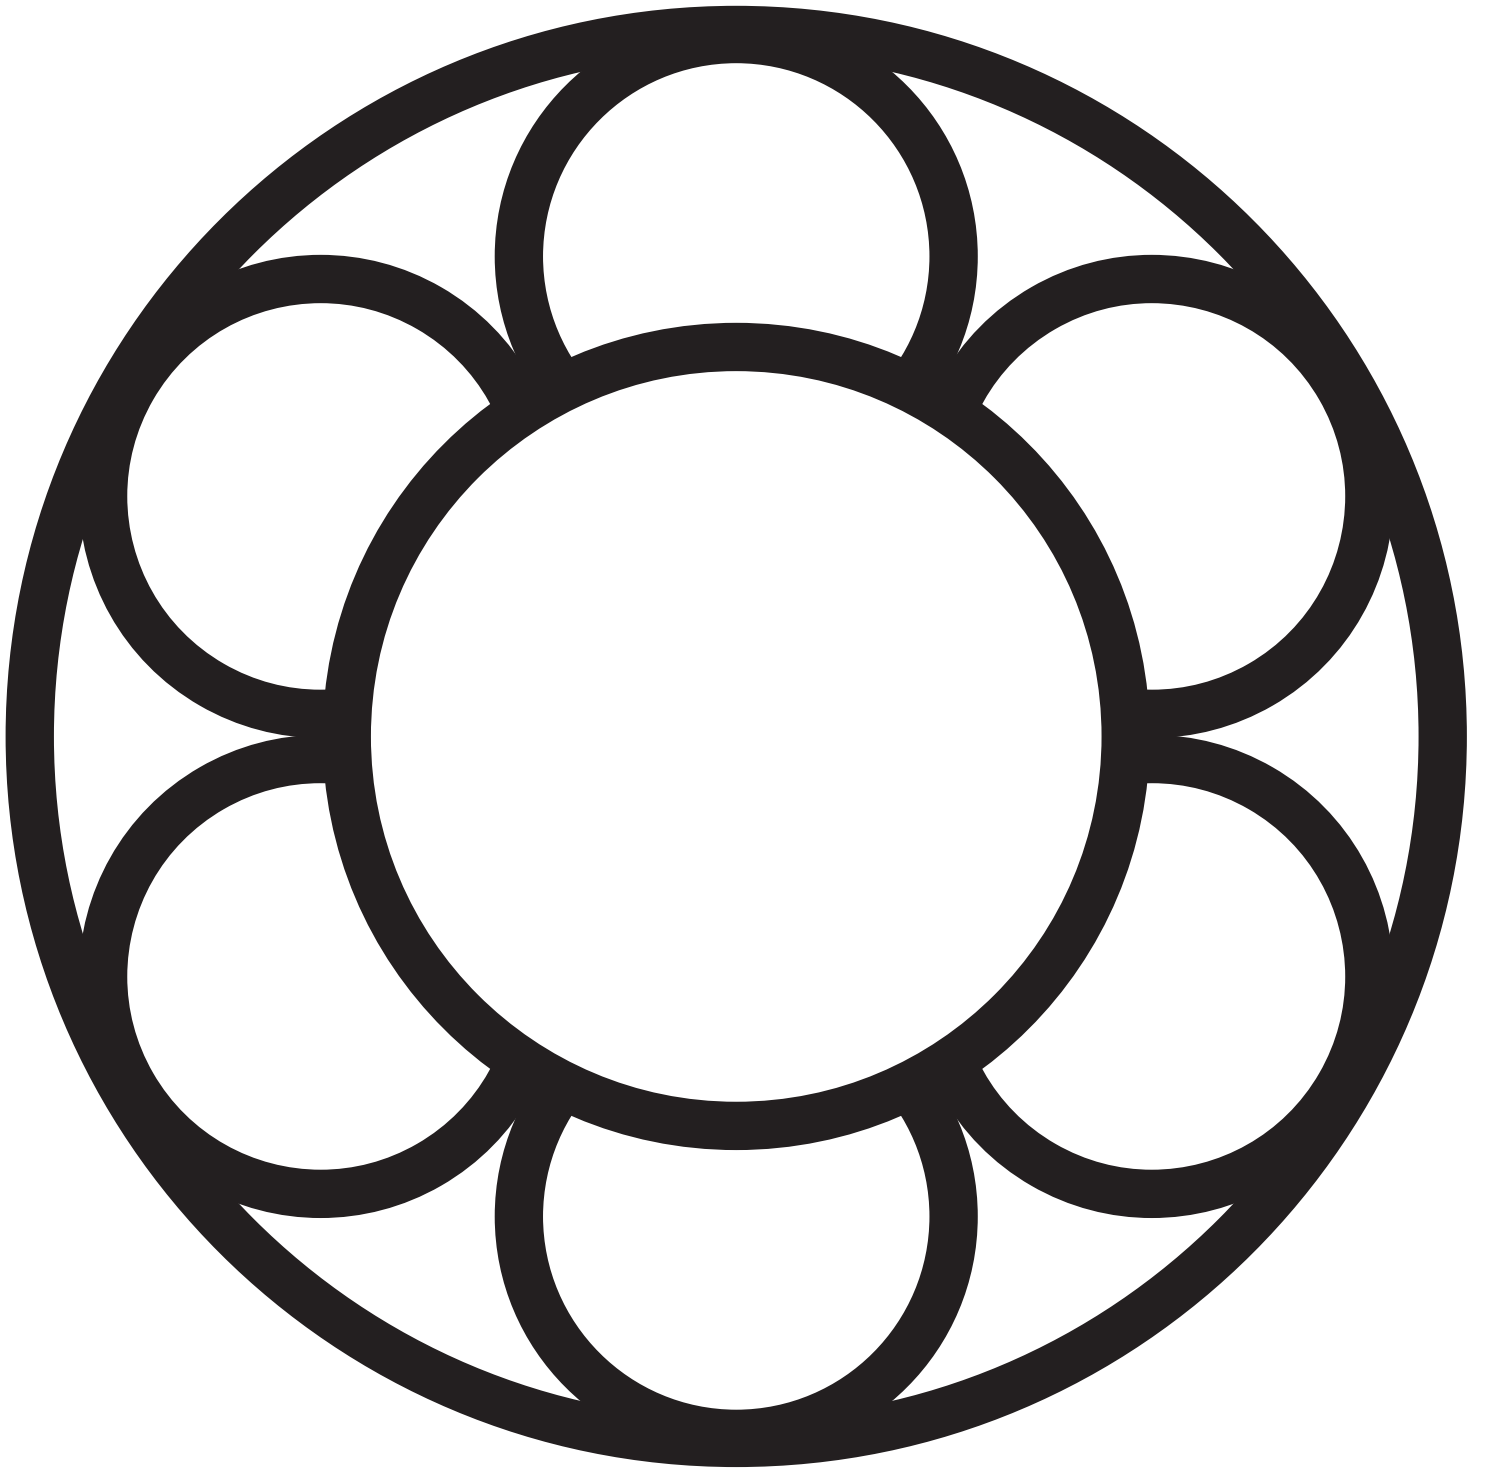

- 1) Print our stained glass window patterns onto transparencies using your computer and printer.
- 2) Tear tissue paper into irregular 1" pieces.
- 3) Spread glue onto transparency with foam brush.
- 4) Use overlapping pieces of tissue paper to fill pattern.
- 5) Let dry.
- 6) Cut out pattern to create an individual stained glass window that can be attached to a window in your building or at home.
- 7) Assemble many individual stained glass windows to create a new, large stained glass window.
